INDEPENDENT AUDITOR'S REPORT

To The Members of Dr. Ramesh Cardiac and Multispeciality Hospital Private Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Dr. Ramesh Cardiac and Multispeciality Hospital Private Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2021, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and its loss, total comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Directors' report and its annexures, but does not include the standalone financial statements and our auditor's report thereon.

- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income , cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

The financial information of the Company for the year ended 31 March 2020 prepared in accordance with Ind AS included in the standalone financial statements, representing the comparative and opening balances in these financial statements, were audited by the predecessor auditor. The audit report of the predecessor auditor dated 17 June 2020, on such financial information, expressed an unmodified opinion.

Report on Other Legal and Regulatory Requirements

1. As required by section 143(3) of the Act, based on our audit we report that:

    (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

    (b) In our opinion, proper books of account as required by law have been kept by the Company.

    (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.

    (d) In our opinion, the aforesaid standalone financial statements comply the Ind AS specified under section 133 of the Act.

    (e) On the basis of the written representations received from the directors as on 31 March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2021 from being appointed as a director in terms of section 164(2) of the Act.

(f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

(g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

(i) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.

(ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

(iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT
(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Dr. Ramesh Cardiac and Multispeciality Hospital Private Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

(i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) The Company has a program of verification of fixed assets to cover all the items in a phased manner over a period of 2 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain fixed assets were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.

(c) The Company does not have any immovable properties of freehold land and building and hence reporting under clause (i)(c) of the Order is not applicable.

(ii) As explained to us, the inventories were physically verified during the year by the Management at reasonable intervals and no material discrepancies were noticed on physical verification.

(iii) The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013.

(iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of sections 185 and 186 of the Companies Act, 2013 in respect of grant of loans, making investments and providing guarantees and securities, as applicable.

(v) According to the information and explanations given to us, the Company has not accepted any deposit during the year and does not have any unclaimed deposits as at 31 March 2021 and therefore the provisions of clause (v) of the Order is not applicable.

(vi) The maintenance of cost records has been specified by the Central Government under section 148(1) of the Companies Act, 2013 in respect of healthcare services rendered. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended prescribed by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013, and are of the opinion that, prima facie, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

(vii) According to the information and explanations given to us, in respect of statutory dues:

(a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Goods and Services Tax, cess and other material statutory dues applicable to it to the appropriate authorities.

(b) There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Goods and Services Tax, cess and other material statutory dues in arrears as at 31 March 2021 for a period of more than six months from the date they became payable.

(c) There are no dues of Income-tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Goods and Services Tax and Value Added Tax as on 31 March 2021 on account of disputes.

(viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of loans or borrowings to banks and financial institutions. The Company did not have any loans or borrowings from government. The Company has not issued any debentures.

(ix) In our opinion and according to the information and explanations given to us, money raised by way of term loans have been applied by the Company during the year for the purposes for which they were raised, other than temporary deployment pending application of proceeds. The Company has not raised moneys by way of initial public offer / further public offer (including debt instruments).

(x) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.

(xi) In our opinion and according to the information and explanations given to us, the Company has paid / provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act, 2013.

(xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us the Company is in compliance with section 177 and 188 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.

(xiv) During the year the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under clause (xiv) of the Order is not applicable to the Company.

(xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or directors of its holding, subsidiary or associate company or persons connected with them and hence provisions of section 192 of the Companies Act, 2013 are not applicable.

(xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

a) For details of property, plant and equipment pledged, refer note 14

b) The Company has a hospital situated in Gunadala, Vijayawada which is located on land that has been taken on a sub-lease from Mrs. P Maha Lakshmi, wife of the Managing Director who had taken it on lease from M/s. Loyola College Society ("Society") vide a lease agreement dated 21 September 2004. The lease was initially taken for a period of 9 years and 11 months which was renewed for an additional period of 15 years and 1 month. This additional lease period expired on 31 January 2019.

At the time of entering into the initial lease, a separate intent letter dated 1st May 1994 was also issued by the Society stating that the Company will have an option to request for renewal of lease for a further period of 25 years from 31 January 2019 based on such terms and conditions as may be mutually agreed. In accordance with this intent letter, the management has made an application dated 03 July 2018 to the Society to extend the lease beyond 31 January 2019. However, the Society rejected this application and has issued a notice to the Company to vacate the premises and to hand over the entire building and structure to the Society.

Aggrieved by this, the management has filed a legal case against the Society and the matter is presently sub-judice. Based on legal advise, the management is of the view that it has a good case to seek renewal of the lease and does not expect any impact of this matter on the future operations of the hospital.

c) Leasehold improvements include super structures and interior works constructed on leased land disclosed as buildings previously. The Company depreciates these over the lease term of the land and original building.

(a) Rights, preferences and restrictions attached to equity shares

The Company has a single class of equity shares. All equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to shareholders' share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid.

Failure to pay any amount called up on shares may lead to forfeiture of shares.

On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

30,000 redeemable preference shares having face value of INR 100 each carrying a fixed dividend of 11% p.a issued by the Company. RPS is redeemable at par upon maturity, which is twelve years from the date of allotment with the Company having an option to redeem the RPS at any time. Holders of RPS are not entitled to any voting rights. 30,000 redeemable preference shares held by Dr. Nagalla Kishore have been redeemed during the year along with preference dividend payable there on.

B There are no continuing defaults in the repayment of the principal loan and interest amounts.

C For the year ended 31 March 2021, due to outbreak of Covid-19 pandemic, RBI vide circular DOR.No.BP.BC.47/21.04.048/2019-20 dated 27 March 2020 has directed banks and financial institutions to provide moratorium of 3 months to borrowers on all payments falling due between 1 March 2020 and 31 May 2020 and vide circular RBI/2019-20/244 DOR.No.BP.BC.71/ 21.04.048/ 2019-20 for all payments falling due between 1 June 2020 and 31 August 2020 to all eligible borrowers classified as standard. Accordingly, the Company has availed moratorium with respect to the principal and interest.

a. In the financial year 2014-15, a party filed a petition against the Company and a leasehold land owner on the grounds that the sub lease given by the leased owner was not valid. The Company is contesting the petition. Based on a legal opinion obtained, the Management does not reasonably expect that such legal action, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial conditions.

b. On 28th February 2019, the Hon'ble Supreme Court of India has delivered a judgment clarifying the principles that need to be applied in determining the components of salaries and wages on which Provident Fund (PF) contributions need to be made by establishments. Basis this judgment, the Company has re-computed its liability towards PF from the month of March 2019 and has paid PF as per Supreme Court judgement. In respect of the earlier periods/years, the Company has been legally advised that there are numerous interpretative challenges on the application of the judgment retrospectively. Based on such legal advice, the management believes that it is impracticable at this stage to reliably measure the provision required, if any, and accordingly, no provision has been made towards the same. Necessary adjustments, if any, will be made to the books as more clarity emerges on this subject.

c. The Company does not have any long-term commitments or material non-cancellable contractual commitments/contracts, including derivative contracts for which there were any material foreseeable losses.

d. The Company was permitted to run a COVID Care Centre by the Krishna District Medical Health Officer in accordance with several measures undertaken by the Government of Andhra Pradesh after the outbreak of COVID-19 at Swarna Palace Hotel, Vijayawada. On 09 August 2020, a fire accident took place at Swarna Palace Hotel. A written report was submitted by the Tahsildar – Vijayawada East, at the Governorpet Police Station, Vijayawada regarding the said fire accident which was registered as FIR No.173 of 2020 of Governorpet Police Station, under Sections 304 (II), 308 read with 34 of IPC. FIR was filed against the management of the Company and Swarna Palace Hotel. Several writ petitions have been filed by the management of the Company to quash the proceedings in FIR No.173 of 2020; however, the investigations have been allowed to continue.

Investigations are ongoing and the final report is yet to be filed. The Company has filed a discrimination petition against the Government in the Hon'ble High Court. The Company has reviewed this litigation and based on the legal advice, the Company believes that it is impracticable at this stage to reliably measure the amount of provision required, if any. The Company does not expect the outcome of these proceedings to have a materially adverse effect on its financial position.

e. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liability where applicable, in its financial statements. The Company does not expect the outcome of these proceedings to have a materially adverse effect on its financial position. The Company does not expect any reimbursement in respect of the above contingent liabilities.

30 Earnings per share

A. Basic earnings / (loss) per share

The calculation of profit/(loss) attributable to equity share holders and weighted average number of equity shares outstanding for the purpose of basic earnings / (loss) per share calculations are as follows:

i) Net profit/(loss) attributable to equity share holders (basic)

Particulars	Year ended 31 March 2021	Year ended 31 March 2020
Net profit / (loss) for the year, attributable to the equity share holders	(854.46)	450.48

ii) Weighted average number of equity shares (basic)

Particulars	Year ended 31 March 2021	Year ended 31 March 2020
Opening balance (Refer note 13)	107.86	107.86
Weighted average number of equity shares of INR 10 each for the year	107.86	107.86
Earnings/ (loss) per share, basic	(7.92)	4.18

B. Diluted earnings / (loss) per share

The calculation of profit / (loss) attributable to equity share holders and weighted average number of equity shares outstanding, after adjustment for the effects of all dilutive potential equity shares is as follows:

i) Net profit/ (loss) attributable to equity share holders diluted)

Particulars	Year ended 31 March 2021	Year ended 31 March 2020
Net profit / (loss) for the year, attributable to the equity share holders	(854.46)	450.48

ii) Weighted average number of equity shares (diluted)

Particulars	Year ended 31 March 2021	Year ended 31 March 2020
Weighted average number of equity shares of INR 10 each for the year (diluted)	107.86	107.86
Earnings / (loss) per share, diluted	(7.92)	4.18

31 Leases

The Company has taken hospital premises, medical equipments and certain premises for staff accommodation on lease from various parties. The leases typically run for a period of 1 year - 7 years. Lease payments are renegotiated nearing the expiry to reflect market rentals.

(i) Lease liabilities

C. Following are the changes in the lease liabilities for the year ended 31 March 2021 and 31 March 2020:

Particulars	**Year ended 31 March 2021**	**Year ended 31 March 2020**
Opening balance	4,157.17	4,052.16
Additions	20.95	117.58
Reversals	(67.90)	-
Finance cost accrued during the period (refer note 25)	360.41	364.42
Payment of lease liabilities	(460.79)	(376.99)
Closing balance	**4,009.84**	**4,157.17**
Non-current lease liabilities	3,909.61	4,024.72
Current lease liabilities	100.23	132.45

(ii) Maturity analysis – contractual undiscounted cash flows

Particulars	**Year ended 31 March 2021**	**Year ended 31 March 2020**
Less than one year	440.08	436.88
One to five years	1,780.60	1,816.04
More than five years	6,825.62	7,266.41
Total undiscounted lease liabilities	**9,046.30**	**9,519.33**

(iii) Right-of-use assets

Right-of-use assets are presented on the balance sheet.

Particulars	**Year ended 31 March 2021**	**Year ended 31 March 2020**
Gross carrying value		
Opening balance	3,210.67	3,093.10
Addition to right-of-use assets	20.95	117.57
Deletion to right-of-use assets	(62.66)	-
Total gross carrying value	**3,168.96**	**3,210.67**
Accumulated Depreciation		
Opening balance	192.25	-
Depreciation for the year (refer note 26)	256.96	192.25
Total accumulated Depreciation	**449.21**	**192.25**
Net Balance	**2,719.75**	**3,018.42**

(iv) Amounts recognised in statement of profit or loss

Particulars	**Year ended 31 March 2021**	**Year ended 31 March 2020**
Lease rental expenses for lease where Ind AS 116 is not applicable	(38.75)	50.43
Interest on lease liabilities	360.41	364.42
Depreciation on right-of-use assets	256.96	192.25

(v) Amounts recognised in statement of cash flows

Particulars	**Year ended 31 March 2021**	**Year ended 31 March 2020**
Total cash outflow for leases	460.79	376.99

The Company has benefited from a 3 month waiver of lease payments on buildings in India. The waiver of lease payments of INR 0.68 crore has been accounted for as a negative variable lease payment in standalone statement profit and loss. The Company has derecognised the part of the lease liability that has been extinguished by the forgiveness of lease payments, consistent with the requirements of Ind AS 109:3.3.1.

32 Segment reporting

Ind AS 108 "Operating Segment" ("Ind AS 108") establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. Based on the "management approach" as defined in Ind AS 108, Operating segments are to be reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM).The CODM evaluates the Company's performance and allocates resources on overall basis. The Company's sole operating segment is therefore 'Medical and Healthcare Services'. Accordingly, there are no additional disclosure to be provided under Ind AS 108, other than those already provided in the financial statements.

The Company operates in India and revenue generations is from a wide spread of the customers and hence the group wide disclosures of major customers are not applicable.

(All amounts in Indian rupee lakhs)

33 Employee benefits

i) Defined contribution plan

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident Fund ('PF') and Employees State Insurance scheme ('ESI') which is a defined contribution plan. The Company has no obligations other than to make the specified contributions. The contribution to PF and ESI charged to the Statement of profit and loss is INR 209.79 (PY: INR 230.37) and ESI is INR 67.57 (PY: INR 105.00).

ii) Defined benefit plan

The Company has a defined benefit gratuity plan as per the Payment of Gratuity Act, 1972 ('Gratuity Act'). Under the Gratuity Act, employee who has completed five years of service is entitled to specific benefit. The gratuity benefit provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 / 30 days' salary payable for each completed year of service. The gratuity plan is a funded plan and the Company makes contributions to recognized funds in India. Liability with regard to this plan is determined by an actuarial valuation as at the end of the year and are charged to the Statement of profit and loss.

Following table sets out the status of employee benefits as at balance sheet date

Particulars	**As at 31 March 2021**	**As at 31 March 2020**
Defined benefit obligation liability	416.66	398.68
Plan assets	(138.86)	(179.35)
Net defined benefit liability	**277.80**	**219.33**

A. Funding

The Company has purchased an insurance policy to provide for payment of gratuity to the employees. Every year, the insurance Company carries out a funding valuation based on the latest employee data provided by the Company. Any deficit in the assets arising as a result of such valuation is funded by the Company.

The following tables summarise the components of net benefit expense recognised in the statement of profit or loss and the funded status and amounts recognised in the balance sheet for the respective plans:

B. (i) Reconciliation of the present value of defined benefit obligation

Particulars	**As at 31 March 2021**	**As at 31 March 2020**
Balance at the beginning of the year	398.68	356.49
Current service cost	62.05	71.33
Interest cost	25.49	25.42
Benefits paid	(49.75)	(48.54)
Actuarial (gains)/ loss recognised in the other comprehensive income		
- experience adjustments	56.80	(0.93)
- changes in financial assumptions	(76.61)	(5.09)
Balance at the end of the year	**416.66**	**398.68**
(ii) Reconciliation of the present value of plan assets		
Balance at the beginning of the year	179.35	208.88
Contributions paid into the plan by employer	-	5.00
Benefits paid	(49.75)	(48.54)
Expected return on plan assets	-	14.64
Actuarial gain/ (loss) on plan assets	9.26	(0.63)
Balance at the end of the year	**138.86**	**179.35**
Net defined benefit liability / (asset)	**277.80**	**219.33**
Current	50.81	45.16
Non-current	226.99	174.17

C. (i) Expense recognized in the Statement of profit and loss

Particulars	**As at 31 March 2021**	**As at 31 March 2020**
Current service cost	62.05	71.33
Interest cost	25.49	25.42
Interest income	-	(14.64)
	87.54	**82.11**
(ii) Remeasurements recognised in Other comprehensive income		
Actuarial (gain)/ loss on defined benefit obligation	(19.81)	(6.02)
Return on plan assets excluding interest income	(9.26)	0.63
	(29.07)	**(5.39)**
	58.47	**76.72**

(All amounts in Indian rupee lakhs)

D. Actuarial Valuation

The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method. The defined benefit plan typically exposes the Company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk	The present value of the defined benefit plan liability denominated in Indian Rupee is calculated using a discount rate determined by reference to market yields at the end of the reporting period on government bonds. For other defined benefit plans, the discount rate is determined by reference to high quality corporate bond yields when there is a deep market for such bonds; if the return on plan asset is below this rate, it will create a plan deficit. Currently the plan in India is investments in government securities and other debt instruments.
Interest rate risk	A decrease in the bond interest rate will increase the plan liability
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability

Assumptions used to determine benefit obligations:

Principal actuarial assumptions at the reporting date (expressed as weighted average)

	As at 31 March 2021	As at 31 March 2020
Financial assumptions		
Discount rate	6.91%	6.82%
Future salary growth rate	4.00%	0% to 3%
Return on Plan assets	9.25%	9.25%
Mortality table	IALM (2012-14)	IALM (2012-14)

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government securities yield.

Gratuity is applicable only to employees drawing a salary in Indian rupees and there are no other foreign defined benefit gratuity plans.

F. Maturity profile of the defined benefit obligation

Expected cash flows over the next (valued on undiscounted basis):

Particulars	As at 31 March 2021	As at 31 March 2020
Within 1 year	50.81	45.16
2 to 5 years	188.11	184.48
6 to 10 years	190.15	183.88

The weighted average duration of the defined benefit obligation is 9.88 years (PY: 9.8 years).

iv) Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and withdrawal rate. Reasonably possible changes at the reporting date to one of the actuarial assumptions, affected the defined benefit obligation by the amounts shown below:

Particulars	31 March 2021		31 March 2020	
	Increase	Decrease	Increase	Decrease
Discount Rate (1% movement)	(24.56)	27.70	(23.51)	26.48
Future Salary Growth (1% movement)	28.25	(25.46)	29.73	(26.78)
Withdrawal rate (1% movement)	3.97	(4.52)	4.99	(5.70)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the changes in assumptions would occur in isolation of one another as some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

v) The Company has to pay INR 50.81 (PY INR 45.16) as contribution towards its defined benefit obligation in the next financial year.

Note: The Company has not disclosed the fair values for financial instruments such as cash and cash equivalents, trade receivables, trade payables etc., because their carrying amounts are a reasonable approximation of fair value. The fair values of the units of mutual fund schemes are based on net asset value at the reporting date.

(All amounts in Indian rupee lakhs)

36 Financial instruments - Fair values and risk management (continued)

B Financial risk management

The Company's activities expose it to a variety of financial risks: credit risk, market risk and liquidity risk.

i) Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the risk management framework.

The Company's board of directors oversee how management monitors compliance with the risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The board is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the board of directors.

ii) Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The credit risk arises principally from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and other financial instruments.

Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom credit has been granted after obtaining necessary approvals for credit. The collection from trade receivables are monitored on a continuous basis by the receivables team.

The Company always measures the loss allowance for trade receivables at an amount equal to lifetime ECL. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtors and an analysis of the debtors' current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate, and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to INR 1,105.73 (PY: INR 2,651.65).

The movement in lifetime ECL in respect of trade and other receivables during the year was as follows:

Allowance for credit loss	**As at 31 March 2021**	**As at 31 March 2020**
Balance at the beginning	401.64	279.96
Impairment loss recognised	402.66	121.68
Balance at the end	**804.30**	**401.64**

No single customer accounted for more than 10% of the revenue as of 31 March 2021 and 31 March 2020. There is no significant concentration of credit risk.

Credit risk on cash and cash equivalent and other bank balances is limited as the Company generally transacts with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

36 Financial instruments - Fair values and risk management (continued)

iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for management of the Company's short, medium and long-term funding and liquidity management requirements. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The table below provides details regarding the undiscounted contractual maturities of significant financial liabilities as of 31 March 2021:

	Less than 1 Year	More than 1 year	Total*
Trade payables	2,244.94	-	2,244.94
Current Borrowings	-	-	-
Non current borrowing (including current maturities)	965.12	1,974.50	2,939.62
Lease liabilities	100.23	3,909.61	4,009.84
Other financial liabilities (excluding current maturities)	171.95	-	171.95
Total	**3,482.24**	**5,884.11**	**9,366.35**

The Company is using the cash inflows from the financial assets and the available bank facilities to manage the liquidity. The table below provides the cash inflows from significant financial assets as of 31 March 2021:

Particulars	**Less than 1 year**	**More than 1 year**	**Total**
Cash and Cash equivalents	724.80	-	724.80

The Company is using the cash inflows from the financial assets and the available bank facilities to manage the liquidity. The table below provides the cash inflows from significant financial assets as of 31 March 2020:

Particulars	**Less than 1 year**	**More than 1 year**	**Total**
Cash and Cash equivalents	419.11	-	419.11
Investments	1,154.65	3,031.07	4,185.72
Trade receivables	2,651.65	-	2,651.65
Loans	-	188.21	188.21
Other financial assets	191.49	76.18	267.67
Total	**4,416.90**	**3,295.46**	**7,712.36**

Financial assets of INR. 7,612.03 lakhs as at 31 March 2021 carried at amortised cost is in the form of cash and cash equivalents, deposits, etc. where the Company has assessed the counterparty credit risk. Trade receivables of INR. 1,105.73 lakhs as at 31 March 2021 carried at amortised cost and is valued considering provision for allowance using expected credit loss method (if any). In addition to the historical pattern of credit loss, we have considered the likelihood of increased credit risk and consequential default considering emerging situations due to COVID-19. This assessment is not based on any mathematical model but an assessment considering the impact immediately seen in the demand outlook and the financial strength of the customers in respect of whom amounts are receivable. The Company has specifically evaluated the potential impact with respect to Healthcare service sector. The Company closely monitors its customers who are being impacted. Also a substantial portion of the financial asset is related to investments in subsidiary companies (INR 3002.85 Crore) wherein Management has considered the impact of COVID -19 on the projections while doing its assessment for impairment testing.

iv) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, such as foreign exchange rates, interest rates and equity prices.

Interest rate risk

The Company is exposed to interest rate risk because the Company borrows funds at both fixed and floating interest rates. The Company's significant interest rate risk arises from long-term borrowings with variable interest rates, which expose the Company to cash flow interest rate risk. The interest rate on the Company's financial instruments is based on market rates. The Company monitors the movement in interest rates on an ongoing basis. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

Financial liabilities (bank borrowings)	**31 March 2021**	**31 March 2020**
Variable rate long term borrowing including current maturities	2,939.62	4,857.05

Sensitivity analysis

	Impact on profit or (loss)		**Impact on equity, net of tax**	
Particulars	**As at 31 March 2021**	**As at 31 March 2020**	**As at 31 March 2021**	**As at 31 March 2020**
1% increase in MCLR rate	(29.40)	(40.15)	(29.40)	(40.15)
1% decrease in MCLR rate	29.40	40.15	29.40	40.15

The analysis is prepared assuming the amount of liability outstanding at the reporting date was outstanding for the whole year. A one per cent increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. The Company's sensitivity to interest rates has increased in the current year due to the additional variable rate long term borrowings taken during the year.

(All amounts in Indian rupee lakhs)

37 Investments, loans, guarantees and security

(a) The Company has made investment in the following companies / limited liability partnerships:

Entity	**As at 31 March 2020**	**Allotment/Purchases during the year**	**Sold During the year**	**Impairment/ Write off**	**As at 31 March 2021**
Investment in equity instruments					
Aster Ramesh Duhita LLP	47.75	-	-	-	47.75
Sanghamitra Hospitals Private Limited	2,915.10	-	-	-	2,915.10
Komali Fertility Centre LLP (Formerly known as Ramesh Fertility Centre LLP)	40.00	-	-	-	40.00
Total Investments	**3,002.85**	**-**	**-**	**-**	**3,002.85**

(b) The Company has given guarantees to the following entities:

Entity	**As at 31 March 2020**	**Movement**	**As at 31 March 2021**	**Purpose of guarantees**
Sanghamitra Hospitals Private Limited	1,733.00	(983.00)	750.00	Corporate guarantee given to Axis Bank to get Term Loan and Working Capital Facility for Sanghamitra Hospitals Private Limited. All the term loans obtained were closed during the year .
	1,733.00	**(983.00)**	**750.00**	

38 The Company has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under sections 92-92F of the Income Tax Act, 1961. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Company is in the process of updating the documentation for the international transactions entered into with associated enterprises during the financial period and expects such records to be in existence latest by the date of filing its income tax return as required by the law. The management is of the opinion that its international transactions are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.

39 In March 2020, the World Health Organisation declared COVID-19 to be a pandemic. This pandemic resulted in disruption to regular business operations due to lockdown, disruptions in transportation, travel bans, quarantines, social distancing and other emergency measures imposed by the government. The Company adopted measures to curb the spread of infection in order to protect the health of its employees and ensure business continuity with minimal disruption and has considered available internal and external information up to the date of approval of the standalone financial statements by the Board of Directors. The Company has used the principles of prudence in applying judgements, estimates and assumptions including sensitivity analysis and the Company has evaluated impact of the pandemic in assessing the recoverability of property plant and equipment (including Capital work in progress), investments, intangibles, inventories, receivables and other assets based on its review of current indicators of future economic conditions. Based on current estimates, including the availability of financing facilities for maintaining liquidity, the Company expects to fully recover the carrying amount of these assets. Further, the Company has taken various measures to reduce its fixed cost - for example, salary reductions, optimization of administrative, sales and marketing costs, deferment of capex along with judicious resource allocation and requesting for the waiver of minimum guarantee fee and revenue share for hospital premises taken on lease. The eventual outcome of impact of the global health pandemic may be different from that which has been estimated as on the date of approval of these standalone financial statements. The Company will continue to monitor any material changes to future economic conditions and the consequent impact on its business, if any, and any significant impact of these changes would be recognized in the standalone financial statements as and when these material changes to economic conditions arise.

40 The Indian Parliament has approved the Code on Social Security, 2020 and Code on Wages, 2019 ['Codes'] relating to employee benefits during employment and post-employment benefits in September 2020 and the same has received Presidential Assent. The Codes have been published in the Gazette of lndia. However, the date on which the Codes will come into effect has not yet been notified. The Company will need to assess the impact of the above. The impact will be recorded in the first period after the Codes become effective.

41 The standalone financial statements of the Company for the year ended 31 March 2020, were audited by B S R & Associates LLP, Chartered Accountants.

1. Company overview

Dr. Ramesh Cardiac and Multispeciality Hospital Private Limited ("the Company") is a company domiciled in India, with its registered office at Vijayawada, Andhra Pradesh. The Company is engaged in the business of rendering medical and healthcare services, participating in clinical studies and conducting training programs and services primarily in Vijayawada and Guntur. Aster DM Healthcare Limited is the Holding Company.

2. Basis of preparation

A. Statement of compliance

These standalone financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as per the Companies (Indian Accounting Standards) Rules, 2015, as amended, and the relevant amended rules prescribed under Section 133 of the Companies Act, 2013, read with relevant rules issued thereunder.

The standalone financial statements were authorised for issue by the Company's Board of Directors on 29 July 2021.

Details of the Company's accounting policies are included in Note 3.

B. Functional and presentation currency

These standalone financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts are presented in Indian Rupees in lakhs, unless otherwise stated.

C. Basis of measurement

The standalone financial statements have been prepared on the historical cost basis except for the following items:

Items	**Measurement basis**
Certain financial assets and liabilities	Fair value
Net defined benefit liability	Fair value of plan asset less present value of defined benefit obligations

D. Use of estimates and judgements

In preparing these standalone financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed by the management on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgements, Assumptions and estimation uncertainties

Information about judgements, assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ended 31 March 2021 is included in the following notes:

- Note 4 and 5 - Measurement of useful life and residual value of property, plant and equipment and intangible assets;
- Note 33 - Measurement of defined benefit obligations: key actuarial assumptions;
- Note 28 - Recognition of deferred tax asset: availability of future taxable profit against which tax losses carried forward can be used;

2. Basis of preparation (continued)

D. Use of estimates and judgements (continued)

- Note 29 - Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 36 - Impairment of financial assets;
- Note 31 - Leases

Estimation uncertainties relating to COVID-19

In March 2020, the World Health Organisation declared COVID-19 to be a pandemic. This pandemic resulted in disruption to regular business operations due to lockdown, disruptions in transportation, travel bans, quarantines, social distancing and other emergency measures imposed by the government. The Company adopted measures to curb the spread of infection in order to protect the health of its employees and ensure business continuity with minimal disruption and has considered available internal and external information upto the date of approval of the standalone financial statements by the Board of Directors. The Company has used the principles of prudence in applying judgements, estimates and assumptions including sensitivity analysis and the Company has evaluated impact of the pandemic in assessing the recoverability of property plant and equipment (including Capital work in progress), investments, intangibles, inventories, receivables and other assets based on its review of current indicators of future economic conditions. Based on current estimates, including the availability of financing facilities for maintaining liquidity, the Company expects to fully recover the carrying amount of these assets. Further, the Company has taken various measures to reduce its fixed cost - for example, salary reductions, optimization of administrative, sales and marketing costs, deferment of capex along with judicious resource allocation and requesting for the waiver of minimum guarantee fee and revenue share for hospital premises taken on lease. The eventual outcome of impact of the global health pandemic may be different from that which has been estimated as on the date of approval of these standalone financial statements. The Company will continue to monitor any material changes to future economic conditions and the consequent impact on its business, if any, and any significant impact of these changes would be recognized in the standalone financial statements as and when these material changes to economic conditions arise.

a. Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. Significant valuation issues are reported to the Company's audit committee.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

2. Basis of preparation (continued)

D. Use of estimates and judgements (continued)

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Share-based payment arrangements
- Financial instruments
- Fair value of property, plant and equipment and intangible assets

b. Recent Accounting Pronouncements

Amendments

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from 1 April 2021.

On 24 March 2021, the Ministry of Corporate Affairs (MCA) through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. The Company is evaluating the effect of the amendments on its standalone financial statements.

3. Significant accounting policies

3.1 Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in the standalone statement of profit and loss.

Advances paid towards the acquisition of property, plant and equipment, outstanding at each balance sheet date are shown under other non-current assets. The cost of property, plant and equipment not ready for its intended use at each balance sheet date are disclosed as capital work-in-progress.

ii. Subsequent expenditure and derecognition

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

3. Significant accounting policies (continued)

3.1 Property, plant and equipment (continued)

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in standalone statement of profit and loss.

iii. Depreciation

Depreciation on property, plant and equipment are provided on the straight-line method over the useful lives of the assets estimated by the Management. Depreciation for assets purchased / sold during a period is proportionately charged. Leasehold improvements are amortized over the lease term or useful lives of assets, whichever is lower. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Class of assets	Useful life
Office equipment	5
Medical equipment*	13
Motor vehicles *	8-10
Computer equipment	3-6
Furniture and fixtures *	10
Electrical equipment	10

* For the above-mentioned classes of assets, the Company believes that the useful lives as given above best represent the useful lives of these assets based on internal assessment and supported by technical advice, where necessary, which is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

3.2 Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Intangible assets are amortised over their respective individual estimated useful lives on a straight-line basis, commencing from the date the asset is available to the Company for its use and is included in depreciation and amortisation expenses in standalone statement of profit and loss. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. The estimated useful life of Software is 4 years.

The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in standalone statement of profit and loss as incurred.

3. Significant accounting policies (continued)

3.2 Intangible assets (continued)

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in standalone statement of profit and loss when the asset is derecognised.

3.3 Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories comprises purchase price, and other cost incurred in bringing the inventories to their present location and condition. The Company uses the weighted average method to determine the cost of inventory consisting of medicines and medical consumables.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The comparison of cost and net realisable values is made on an item-by-item basis.

3.4 Impairment

i. Impairment of financial assets

The Company recognises loss allowances for expected credit losses (ECL) on financial assets measured at amortised cost.

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is ‘credit impaired’ when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The Company always measures the loss allowance for trade receivables at an amount equal to lifetime ECL. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtors and an analysis of the debtors' current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate, and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of expected credit losses

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the standalone balance sheet:

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off:

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off.

3. Significant accounting policies (continued)

3.4 Impairment (continued)

ii. Impairment of non- financial assets

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated to determine the extent of impairment loss, if any.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount i.e., the higher of the fair value less cost to sell and the value-in-use is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the standalone statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset.

An impairment loss is reversed in the standalone statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

3.5 Employee benefits

Short-term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the amount of obligation can be estimated reliably.

Post-employment benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in standalone statement of profit and loss in the periods during which the related services are rendered by employees.

3. Significant accounting policies (continued)

3.5 Employee benefits (continued)

Defined Benefit plans

Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses are recognised in other comprehensive income (OCI) in the period in which they occur. Remeasurements of the net defined benefit liability (asset) recognised in other comprehensive income shall not be reclassified to standalone statement of profit and loss in a subsequent period. However, the Company transfers those amounts recognised in other comprehensive income within equity. The Company determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in standalone statement of profit and loss.

Other long-term employee benefits

The Company's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Remeasurement gains or losses are recognised in other comprehensive income in the period in which they arise.

Compensated absences

With effect from 31 March 2020, the Company does not have any long-term employee benefits under compensated absences due to change in policy for compensated absences.

3.6 Provisions (other than employee benefits)

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

A contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with that contract.

3. Significant accounting policies (continued)

3.7 Revenue

Revenue from contract with customers

The Company generates revenue from rendering of medical and healthcare services, sale of medicines and other related activities. Ind AS 115, Revenue from Contracts with Customers, establishes a comprehensive framework for determining whether, how much and when revenue is recognised. Under Ind AS 115, revenue is recognised when a customer obtains control of the goods or services.

Disaggregation of revenue

The Company disaggregates revenue from hospital services (medical and healthcare services), sale of medicines and other operating income. The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of Company's revenues and cash flows are affected by industry, market and other economic factors.

Contract balances

The Company classifies the right to consideration in exchange for sale of services where invoice is raised as trade receivables, where invoice has not been raised as unbilled revenue and advance consideration as advance from customers.

Performance obligations and revenue recognition policies

Revenue is measured based on the consideration specified in a contract with a customer. The Company recognises revenue when it transfers control over a good or service to a customer. The following details provide information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies.

a) Medical and healthcare services

The Company's revenue from medical and healthcare services comprises of income from hospital services.

Revenue from hospital services to patients is recognised as revenue when the related services are rendered unless significant future uncertainties exist. Revenue is also recognised in relation to the services rendered to the patients who are undergoing treatment/ observation on the balance sheet date to the extent of the services rendered. Revenue is recognised net of discounts and concessions given to the patients.

Unbilled receivable represents value to the extent of medical and healthcare services are rendered to the patients who are undergoing treatment/observation on the balance sheet date and is not billed as at the balance sheet date.

b) Sale of medicines

Revenue from sale of medical consumables and medicines within the hospital premises is recognised when the control in the goods are transferred to the customer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods and regarding its collection. The amount of revenue recognised is net of sales returns, taxes and duties, wherever applicable.

3. Significant accounting policies (continued)

3.7 Revenue (continued)

c) Other operating income

The Company's revenue from other operating income comprises primarily of canteen sales (sales of food and beverages), revenue from courses conducted at the hospital, income from revenue sharing agreements.

Revenue from services rendered is based on the agreements/arrangements with the customers as the service is performed. Income from sale of food and beverages is recognised at a point in time when control is transferred.

3.8 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in standalone statement of profit and loss.

3.9 Leases

Determining whether an arrangement contains a lease

At inception of an arrangement, it is determined whether the arrangement is or contains a lease. At inception or on reassessment of the arrangement that contains a lease, the payments and other consideration required by such an arrangement are separated into those for the lease and those for other elements on the basis of their relative fair values.

i. Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the standalone statement of profit and loss.

3. Significant accounting policies (continued)

3.9 Leases (continued)

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and standalone statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in standalone statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116, Leases, to short-term leases of all assets that have a lease term of 12 months or less. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line “Other expenses” in the standalone statement of profit and loss.

ii. Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. The Company recognises lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor’s net investment in the lease. Amounts due from lessees under finance leases are recognised as receivables at the amount of the Company’s net investment in the leases. When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 Revenue from contracts with customers to allocate the consideration in the contract.

3. Significant accounting policies (continued)

3.9 Leases (continued)

iii. Impact of COVID-19

The Company does not foresee any large-scale contraction in demand which could result in significant down-sizing of its employee base rendering the physical infrastructure redundant. The leases that the Company has entered with lessors are long term in nature and changes in terms of those leases expected due to the COVID-19 are not expected to have impact in the standalone financial statements for the year ended 31 March 2021.

The Company has adopted the amendments to Ind AS 116 for the first time in the current year. The amendments provide practical relief to lessees in accounting for rent concessions occurring as a direct consequence of COVID-19, by introducing a practical expedient to Ind AS 116. The practical expedient permits a lessee to elect not to assess whether a COVID-19-related rent concession is a lease modification. A lessee that makes this election shall account for any change in lease payments resulting from the COVID-19-related rent concession the same way it would account for the change applying Ind AS 116 if the change were not a lease modification.

The practical expedient applies only to rent concessions occurring as a direct consequence of COVID-19 and only if all of the following conditions are met:

(a) The change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;

(b) Any reduction in lease payments affects only payments originally due on or before 30 June 2021 (a rent concession meets this condition if it results in reduced lease payments on or before 30 June 2021 and increased lease payments that extend beyond 30 June 2021); and

(c) There is no substantive change to other terms and conditions of the lease.

The Company has applied the practical expedient retrospectively to all eligible rent concessions and has not restated prior period figures.

3.10 Recognition of dividend income, interest income or interest expense

Dividend income is recognised in standalone statement of profit and loss on the date on which the right to receive payment is established.

Interest on deployment of surplus funds is recognized using the time proportionate method, based on the transactional interest rates.

Interest income or expense is recognised using the effective interest method.

The ‘effective interest rate’ is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to the gross carrying amount of the financial asset or the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability.

3. Significant accounting policies (continued)

3.11 Income tax

Income tax comprises current and deferred tax. It is recognised in standalone statement of profit and loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

A provision is recognised for those matters for which the tax determination is uncertain, but it is considered probable that there will be a future outflow of funds to a tax authority. The provisions are measured at the best estimate of the amount expected to become payable. The assessment is based on the judgement of tax professionals within the Company supported by previous experience in respect of such activities and in certain cases based on specialist independent tax advice.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding tax bases used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be utilised. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

3. Significant accounting policies (continued)

3.12 Borrowing cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset until such time as the asset is substantially ready for their intended use or sale. Other borrowing costs are recognised as an expense in the period in which they are incurred.

3.13 Financial instruments

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value, except for trade receivables that do not have a significant financing component which are measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss - FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in standalone statement of profit and loss.

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as either at amortised cost, FVTPL or fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

3. Significant accounting policies (continued)

3.13 Financial instruments (continued)

The Company makes an assessment of the objective of the business model in which a financial asset is held at investment level because this best reflects the way the business is managed, and information is provided to management. The information considered includes:

- the stated policies and objectives for each of such investments and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g., non-recourse features).

3. Significant accounting policies (continued)

3.13 Financial instruments (continued)

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in standalone statement of profit and loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in statement profit and loss. Any gain or loss on derecognition is recognised in standalone statement of profit and loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in statement profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to standalone statement of profit and loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in standalone statement of profit and loss.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in standalone statement of profit and loss. Any gain or loss on derecognition is also recognised in standalone statement of profit and loss.

iii. Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its standalone balance sheet but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in standalone statement of profit and loss.

3. Significant accounting policies (continued)

3.13 Financial instruments (continued)

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the standalone balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3.14 Earnings / (loss) per share

The basic earnings / (loss) per share ('EPS') is computed by dividing the net profit / (loss) after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit/(loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the period unless issued at a later date. In computing dilutive earnings per share, only potential equity shares that are dilutive, i.e., which reduces earnings per share or increases loss per share are included. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits/reverse share splits and bonus shares, as appropriate.

3.15 Cash-flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

3.16 Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term deposits with an original maturity of three months or less which are subject to insignificant risk of changes in value.

3.17 Operating cycle

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.
